QBIT
QUANTUM CONTROL

► HVAC CONTROL SYSTEM

QBIT brand produces HBrit control systems for the HVAC industry, inspired by Quantum technology, offering energy-efficient and sustainable control solutions. These solutions cover control processes related to various systems such as heat recovery ventilation units, air handling units, fan coil units, and fans. **QBIT**'s HBrit control systems stand out in the sector due to their advanced technology, high energy efficiency, and performance. These systems provide an environmentally friendly and cost-effective solution by reducing buildings' energy consumption.

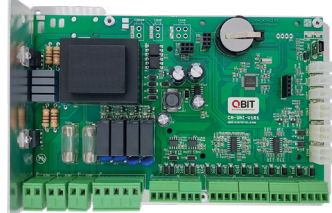

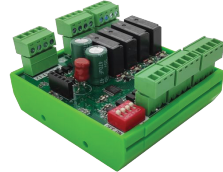

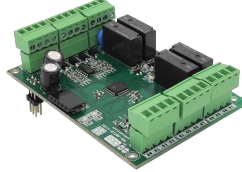

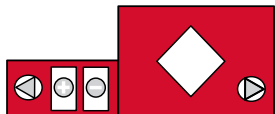

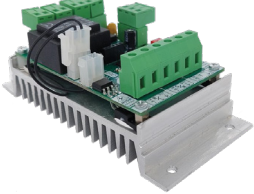

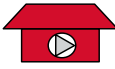

QBIT's HBrit control systems offer a solution that is ahead of the sector in terms of energy efficiency, environmental awareness, and quality. Anyone looking for control solutions related to heat recovery ventilation units, air handling units, fan coil units, and fans can opt for **QBIT**'s HBrit control systems.

► OUR SOLUTIONS

- QBIT's control systems are developed and tested by their expert team, proving their reliability and quality.
- HBrit control systems operate intelligently and intuitively, providing full control over ventilation systems in buildings.
- This increases indoor air quality and comfort levels, protecting the health of employees and visitors.
